

Aryan Bhardwaj

Portland, OR (*open to relocation & remote*) | 971-218-3141 | ab@rearyan.com | rearyan.com | GitHub | LinkedIn

Operator who builds. MBA + MS Data Science. Run revenue channels (Faire, Amazon, iHerb, TJ Maxx) and shipped 6 production applications automating operations at a specialty manufacturer.

EXPERIENCE

Data & Growth Consultant

Mar. 2025 – Present

The Tao of Tea — specialty tea manufacturer & wholesaler

Portland, OR

- **Launched and scaled the Faire wholesale channel from zero** to 35 retail accounts across 11+ states, 4×-ing monthly run rate; Top Shop status every month since launch, zero late shipments.
- Built the supporting analytics in Python — basket analysis, RFM segmentation, cohort retention — and acted on them (a product trio in 43% of orders became a bundle strategy).
- **Secured price increases across Amazon Vendor Central and iHerb**, managing both retailer relationships; onboarded TJ Maxx as a new account; own key-account promotion forecasting.
- **Designed and deployed 6 production applications** using AI-assisted development (Claude Code, Cursor) with Rust, TypeScript, React, Tauri, and Python automating operations: PO parsing, demand planning, carton-packing optimization, case labeling, packing slips, and catalog/inventory management. Cut PO processing from 40 minutes to under 2; self-initiated, in daily use by non-technical staff.
- **Completed a QuickBooks migration stalled for 11 years in two weeks**, with zero disruption to operations.
- Drafted FDA FSMA/FSVP compliance documentation and SOPs; **managed concurrent cross-functional projects end-to-end** — facility expansion, warehouse liquidation, a vendor-run website migration, and an email-platform migration (Mailchimp → Brevo) cutting costs 88% (~\$5K/yr).

Chief of Staff (Contract)

Jan. 2025 – May 2025

Stealth Startup

Remote

- Built an internal SaaS hiring tool with no-code platforms and GenAI, cutting time-to-hire ~40%; launched the company website in 2 weeks. (*pre-seed, ~5-person team.*)

Data Science Intern (Internship)

Dec. 2024 – Mar. 2025

TruTrip

Remote

- Built data pipelines and governance frameworks for U.S. market expansion; presented market trend analysis to leadership, informing retention strategy.

Search Quality Evaluator (Contract)

2017 – 2022

Appen

Remote

- Evaluated search results for relevance and quality for a major technology client (under NDA); 5 years of continuous renewals — early human-in-the-loop evaluation for large-scale ML systems.

SELECTED PROJECTS

The Tao of Tea Operations Suite | *Rust, TypeScript, React, Tauri, Python* | github.com/aaryanbh96

- End-to-end operations automation: PO Aggregator, PO Processing & Carton Optimization (weight-ceiling bin packing), Case & Shipment Label Printers, Packing Slip Generator, and a cloud Catalog & Inventory System (Rust/axum API, PostgreSQL, Tauri desktop app).

Faire Wholesale Channel Analytics | *Python, Pandas, Plotly, Seaborn* | rearyan.com/faire-analysis.html

- Basket/co-occurrence analysis, RFM retailer segmentation, cohort retention, and Pareto concentration — surfacing a product trio in 43% of orders that drove a bundle strategy.

Side Projects | wc2026.rearyan.com & pi.rearyan.com

- Self-grading World Cup forecaster (Elo + 20,000-run Monte Carlo, server-frozen predictions, Brier-scored, fully automated) & generative art where pi's digits play chess from your birthday's spot in pi (Three.js).

EDUCATION

Willamette University — *Master of Science in Data Science*, Salem, OR

Aug. 2023 – Aug. 2024

Willamette University — *Master of Business Administration*, Salem, OR

Aug. 2022 – May 2024

Doon University — *Bachelor of Arts (Honors) in German*, Dehradun, UKD

Jul. 2014 – Jul. 2017

SKILLS

Build stack: Rust, TypeScript, React, Tauri, Python, SQL (Postgres), Git, Docker, GCP — AI-assisted development (Claude Code, Cursor)

Data: Pandas, Polars, NumPy, Scikit-learn, statistical analysis, R, RFM/cohort segmentation, demand forecasting, Plotly, Seaborn, Matplotlib, Tableau

Operations: Amazon Vendor Central, Faire, iHerb, QuickBooks, Excel (advanced), FDA FSMA/FSVP, channel P&L, vendor negotiation, project management
